FEEDBACK from 2023 attendees

"I have been attending educational conferences for over 30 years and this is the first one in a very long time that I can say is a wow! It was inspiring and I learned something new from every single keynote and breakout speaker. Our superintendent and every principal and teacher in our district needs to hear all of this information!"

"Everything was incredible, and I cannot miss the next one. The breakout sessions challenged my mind, soul and spirit."

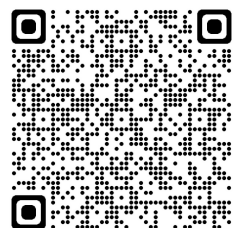

"Wonderful! I had stopped attending conferences because, in education, you start to hear the same things over and over. This blew it out of the water! Please do it again next year!"
