

# Christy Brent

## Tanque Verde Unified School District No. 13

I am Christy Brent and I am running for the Tanque Verde School Board. I am a conservative Christian and have lived in the Tanque Verde area for 5 years. We moved to Tucson to be close to our family. I met my husband of 38 years while going through the California Department of Corrections Academy. After graduating in the top 3%, I went to work at Sierra Conservation Center, a level 3 prison that supports the forestry fire departments in Jamestown, California. After 9 months I transferred to Folsom Prison, an all male population maximum security institution.

Between my husband and I we have a blended family of 4 children and 12 grandchildren. I lived in Tennessee for 10 years and worked at a group home for girls ages 12~18. This facility was a last step program before incarceration. This job was my most difficult job however, the most rewarding job I have ever had.

### Statement:

I love children. I have one granddaughter still attending school here in the Tanque Verde school district. My goal is to keep her and all children safe from perpetrators, indoctrination of sexually explicit, gender teachings, and critical race theory. These subjects are not the job or responsibilities of the schools/teachers. Children should be taught the basics. I support parents participation in their children education. I would welcome their right to have a say-so in their children's curriculum. School is all about our children and their safety, not political agendas.
