

# Joseph Delgado Jr.

## Flowing Wells Unified School District No. 8

My name is Joseph Delgado Jr., and I am running for the opening on the Flowing Wells School board, and I am asking for your vote.

I am a Flowing Wells High School graduate Class of 2017 from there I graduated from the University of Arizona with my degree in accounting. I am the only candidate that has graduated from Flowing Wells High School in the 21<sup>st</sup> century. I come from a large family of Flowing Wells graduates, my father graduated from Flowing Wells High School along with his 4 brothers and their wives. I believe there is no other candidate that is more entrenched in the district than me. Two of my younger siblings are attending the district while I also have a parent that works in the district. These vantage points give me a unique perspective on the district that very few have. Decisions that I will make as

a school board member will have a direct impact not only on my life but also my family's life.

The reason I am running for school board is I believe it is time for someone from my generation to have a seat at the table when it comes to decision making for the district. I believe it is time to bring back common-sense decisions to the school board. I am an avid supporter of Career Technical Education (auto-mechanics, culinary arts, woodworking, nursing programs, etc.) at the junior high level all the way through high school. I believe that it is vital that when students graduate from the Flowing Wells district, they do so with a valuable skill that they will hold onto and be of benefit to the local community.

I stand firm in my belief of the importance of sports and physical education in the district. It is important that the Flowing Wells Community is not only fostering the next generation to be educated but also to be healthy and learn the valuable social skills that team sports and individual sports teach.

As a board member I also bear responsibility to answer to the taxpayer, and I can promise under my term I will do everything in my power to keep the tax rates down and still provide the A+ product that is the Flowing Wells School District. It is time that the school board faces the challenges of inadequate funding head on and can do so in ways that do not require a tax hike.

The Flowing Wells School District is a district like no other, you will find some of the most genuine caring people within it. Teachers that care deeply about their students and students that deserve to succeed and be productive members of society. Allow me, with your vote, to fight for the Flowing Wells District and community.
