

# Esteban Flores

## Tucson Unified School District No. 1

Hello Tucson, my name is Esteban Flores. I am running for your local school board for the Tucson Unified School District. I want you to know how important this election is to me. This is such a crucial time in our nation's history. It is far more than just winning a school board seat. It's about the future of Tucson. Our children's educational experience will impact families, generations, and communities not just in Tucson but in the United States of America. This is about what the future of Tucson is going to be about and the future of the nation.

I am a native-born local Tucsonan who loves his wife and precious six-year-old daughter. I love my city and want to serve my community well. My definition of public schools is schools that represent and serve the will and desires of the public and serve the public well. Tucson must be well served. I am a pro-family values man, pro-community, pro-faith. I have served my community as a youth pastor and preacher in multiple churches in the community. I'm also a life coach. My business is called Fulfilling Freedom Consulting, where I help people heal mentally and emotionally from past pain and cultivate freedom from negative emotional behaviors and addictions, leading to the freedom they desire and are called to and purposed for. I also aid my community through physical healing by serving as their endoscopy tech during medical endoscopic procedures. I am a local high school alumnus of San Miguel High School, a Catholic Lasallian school from the Cristo Rey Network. Growing up, however, most of my education is from public schools residing in the TUSD and Sunny side districts. I'm also an alumnus of Pima Community College with an associate of liberal arts.

I am running to be a voice for you and your child. To promote the general welfare and common defense and to secure the blessings of liberty for you and your posterity! I want parents to know you have an advocate for you. Your parental authority will always be respected and protected by me. I am an advocate and defender of the Constitution. I desire to work to give you the schools and education that you desire. You are the ones with the power, and I will always respect that. I will be your public servant. Allow me to be the board member who will hear and heed your voice for your children. The children of America are America's future. Allow me to be your public servant on the TUSD Governing Board!

Thank you for your consideration.
