

Kevin Daily

Flowing Wells Unified School District No. 8

My name is Kevin Daily and I ask for your vote for election to the Flowing Wells Schools Governing Board.

I am a 1983 Flowing Wells High School graduate. Our 3 children all graduated from Flowing Wells and I look forward to someday having future grandchildren graduate from Flowing Wells. I have served honorably on the board for 23 years.

Flowing Wells Schools changed my life since coming here in 8th grade. Flowing Wells provided a traditional comprehensive education that even more today has something for everyone! During my tenure, while others cut programs, we did more with less. At Flowing Wells we are a family and tight-knit community.

Flowing Wells has always been a leader in providing the largest variety of programs to our kids while at the same time conservative when making big changes too quickly. It is our culture to stay tried-and-true to our core beliefs and make sure the schools reflect values and priorities of the community we serve. Flowing Wells has never taught Critical Race Theory (CRT) and will not. Our focus is reading, writing and arithmetic providing a traditional comprehensive education with arts, music and sports for all. We have something for everyone!

Another of our core beliefs is also to be financially responsible. Flowing Wells has a long history of consistently being financially responsible and has the highest of bond ratings. Our voters trust us and approve our bond elections and overrides. We have saved our taxpayers money by refinancing our existing bonds at a lower rate. We recently rebuilt Douglas Elementary School with the support of our community to provide a building our families deserve and one that saves taxpayers on utilities and maintenance. We added solar throughout our district which reduces our electric bills. We have first-rate athletic facilities with energy efficient field lighting for our athletic events and celebrations!

We have so much more we are going to do to support for our kids and families while continuing to provide a comprehensive, traditional school experience. Since 2000 we have added so many programs such as STEAM in elementary, orchestra, expanded our auto program, ROTC, dance, welding, graphic arts, agriculture, engineering, film, creation, expansion of preschool, and full-day kindergarten. We have a 100% initiative whose mission is to have 100% of our graduating seniors be involved in post graduation education or training, whether it be trades-school, beauty/barber, military, junior college or university or other.

Flowing Wells is a special place where we know our students have the potential and we provide the opportunity for them to reach that potential! I will continue to work hard for our community and thank you for your vote!
