

Stephanie Miller

Flowing Wells Unified School District No. 8

I'm Stephanie Miller and I am running to be elected to the Flowing Wells Unified School District Governing Board. In June 2024, I was appointed to the Board.

As a dedicated mother of two and an experienced social worker, I bring a unique blend of practical parenting experience and professional expertise to the school board. My background equips me with a deep understanding of both the educational and emotional needs of students and families. I was born and raised in Arizona, and my husband and I have called Tucson home for nearly 20 years. I completed K-12 in Arizona public schools, and earned two degrees from state universities. My Bachelors of Science is from the University of Arizona, and my Masters of Social Work is from Arizona State University. As a product of Arizona public schools, I want to ensure that students in Flowing Wells have every benefit and advantage available to them.

I value high quality instruction and supportive care for each child. Flowing Wells is a place where preschoolers have access to quality early education, elementary students encounter science through STEAM (Science, Technology, Engineering, Arts and Math) curriculum, parents and caregivers utilize before- and after-school care programs, and high school students develop skills that open doors upon graduation. My own children have benefited from the extraordinary support from the Emily Meschter Early Learning Childhood Center and the kindergarten readiness programs. The Flowing Wells teachers and staff helped my children re-enter an education setting after staying home during the pandemic. As a mother, I am so grateful for the Flowing Wells' team of teachers and staff who have helped my children catch up in spite of the setbacks from the pandemic. I am also thankful for the offerings of before- and after-school programs that made it possible for me to return to work. I know this is a necessity for many parents and caregivers to remain in the workforce, and I appreciate that Flowing Wells has established and maintained these programs. As a member of the Board, I will support and enhance these strategies, safeguard them for the future, and explore new opportunities for students.

Along with supporting students and their families, it will be a priority for me to support teachers and staff and ensure they have what they need to be successful. It is important for our educators to have instructional assistance, classroom materials and technology, and professional development opportunities. When teachers and staff are equipped with what they need, they can enjoy a positive work environment and deliver a quality education experience for students.

Our Flowing Wells community is strong and I truly appreciate the commitment and good work of our Flowing Wells School District. I am so honored to have been appointed to the Board and it would be a privilege to continue serving on the Board to support the students, teachers, and staff in fulfilling the district's mission where "Potential Finds Opportunity." Please vote for Stephanie Miller for Flowing Wells School Board. stephanieforflowingwells.com
