

Jeremy Schalk

Tanque Verde Unified School District No. 13

My name is Jeremy Schalk, and I am proud to be running for the Tanque Verde School Board. My decision to join the board stems from a deep commitment to serving my community and making a meaningful contribution to the education of all students in our district, including my own children.

As the Vice President of Hi-Tech Machining and Engineering in Tucson, I bring a wealth of experience in business and leadership. I hold an MBA from the University of Arizona – Eller College and a Bachelor's degree in Electrical Engineering from Ohio State University. Over the years, I have dedicated my time to volunteering with Career and Technical Education (CTE) projects in various high schools throughout Pima County, where I have seen firsthand the positive impact these programs can have on students' futures.

My background in business, training, and education aligns closely with the needs of our district's CTE programs. I am passionate about continuing to share my expertise in this area, ensuring that our students have access to a diverse range of learning experiences and educational pathways, whether they choose to pursue college or enter directly into a career.

It would be an honor to continue serving on the Tanque Verde School Board, where I can further contribute to the success and well-being of our students by expanding their educational options and supporting their growth into well-rounded individuals.

Thank you for your support.
