## Tanque Verde Unified School District No. 13

I am running to serve a second term as a Tanque Verde Unified School District (TVUSD) Governing Board member.

As a parent of three children whose foundation rests on their TVUSD education, I have closely witnessed the educational breadth and rigor provided to my children, as well as opportunities for improvement that would benefit all Tanque Verde students.

I've volunteered in my children's classrooms as well as served within several Tanque Verde (TV) school support organizations such as:

- TV Elementary School Parent Teacher Group
- TV Music Booster Club
- TV High School PTSG
- TV Education Alliance political action committee
- TV Student Activities Booster Club - Girls Soccer

I have also supported the district as a substitute teacher in the classroom and as the district's social media coordinator.

Within these experiences, I've developed relationships with staff, students, fellow parents, and Tanque Verde community members. I've also gained a unique understanding of how Tanque Verde schools operate, how funding and policy decisions impact our students, staff, and our larger Tanque Verde community.

Over the last four years as a TVUSD Governing Board member, I have collaborated with fellow board members and district administration to develop policies and strategies that support a robust and thriving educational environment — keeping a focus on student learning. I utilize my engineering background to identify issues and pave pathways for continuous improvement — so that every student can excel.

As a TVUSD Governing Board member I will continue to:

- Listen and work with parents, teachers, staff, and students to understand challenges, create opportunities, and celebrate successes
- Collaborate with fellow board members and administration
- Ensure district resources are used responsibly
- Keep Tanque Verde students' educational excellence the focus and priority of my policy decisions

Thank you for your consideration.
