

Kimberly Outlaw Ryan

Amphitheater Unified School District No. 10

My name is Kimberly Outlaw Ryan. I am a native Arizonan and a product of the Arizona public school system. Born and raised in Page, I came to Tucson on an honors scholarship to attend the University of Arizona where I completed a B.S. in Molecular and Cellular Biology with a combined minor in Chemistry, Calculus, and Physics, and Dance. I achieved my Juris Doctor degree from the Sandra Day O'Connor College of Law at Arizona State University. As a public school teacher for several years at Flowing Wells High School, I taught Biology and Chemistry while simultaneously completing my teaching certification from Pima Community College when I decided to pursue my career in law. I am currently Deputy General Counsel for the Tucson Airport Authority.

I've submitted my name for election to the Governing Board of Amphitheater School District due to my deep-seated appreciation for public service and support of the public school system. My children have been enrolled and thrived at Amphi School District public schools in academics, athletics, and the cultural arts from kinder through high school and I want to make an impact on ensuring the same successes for all students enrolled in Amphi public schools every day.

I am a firm advocate of the state laws that govern open meetings to the public and if elected, I commit to listening to staff, teachers, students, parents, and the district tax payers as a steward of the District, just as I have been doing as a member of the Town of Oro Valley's Planning and Zoning Commission, currently serving as Vice Chair.

I've been married for 20 years to a Captain at Golder Ranch Fire District and small business owner. I'm the daughter of a retired career public school teacher, and a public energy consultant. I'm also a member of St. Mark's United Methodist Church. In my spare time I enjoy supporting my children in their academic and extracurricular activities, spending time in the outdoors with my family golfing, hunting and fishing.
